or LEDs
- No batteries
required

i-INSERT

Having trouble getting your scleral lens in?

Meet i-INSERT — the smart, steady way to apply your lenses. Place your lens on the suction cup attached to i-INSERT and enjoy total control: both hands free, no slipping, no stress. Made from a high-quality, eco-friendly wax-plastic blend, i-INSERT is built to last — a lens tool for life, not just for the week.

Benefits at a glance:

- Faster, easier lens insertion
- Greater comfort with both hands free
- Sustainable and long-lasting design
